### Coding skills exp.

Python	7y
C# & .NET	4y
PgSQL / MySQL	3y
Javascript / PHP	3y
Bash / CMD	4y
HTML + CSS	3y

### Technical skills

- Unit tests & Deployment
- Github, Visual Studio
- Unity & Godot engines
- Agile development
- UML & MCD diagrams
- MS Office / LibreOffice

### Soft Skills

- Time management
- Problem solving (debug)
- Teamwork & cohesion

### Languages

- Native French
- Fluent English (B2+)
- High school Spanish (B1)

### Miscellaneous

I have been a Dungeon Master for more than a year now. This role of responsibility is not far from an escape room designer; I schedule sessions for players, and create various adventures within an imaginative world.

### About me

Second year undergraduate in university, I aim to find a 3 months internship among a team of developers. I study computer science, and often code my own scripts and projects in my free time. While keen on learning, I lack real-world work experience, and wish to change that during April 2025.

### Experience

#### 2023-Today: IUT Annecy, France

Design and deployment of a commercial website and C# application, linked together with a database and hosted remotely.

#### 2022-2023: Lycée Lachenal, France

Small Unity and Godot games, as a first introduction to engines and scrum projects.

#### 2020-Today: Personal Discord Bot

Long-term python project in continuous development, used as a tool to learn source control and best practices in coding.

### Education

#### 2023-2026: BUT INFO - IUT Annecy

3 year bachelor's degree of technology, specialized in computer science and IT. USMB, 74011 Annecy-le-vieux, France

#### 2020-2023: General Baccalaureate

High school diploma with honors in CS. Lycée Lachenal, 74310 Pringy, France
